## CLEANING & MAINTENANCE INSTRUCTIONS

### AQUACLEAN® TECHNOLOGY

#### ADVANCED UPHOLSTERY PROTECTION

1. The AquaClean treatment system covers every single fibre with an invisible molecular coating.
2. Dirt does not penetrate the fabrics fibres.
3. The stains just disappear on applying water.
4. Simply remove with a lint free white cloth.

### WATER CLEANING IN THREE SIMPLE STEPS

**Aquaclean®** Technology enables you to get rid of small stains such as wine, coffee, food and even most marker pens without having to wash with soap or detergent. However, large stains may require a mild non-alkali detergent. Please spot test in an inconspicuous area first.

- 1 Remove any excess residue from your upholstery.
- 2 Apply water over the stain, either directly or using a damp cloth, then wait a few seconds.
- 3 Finally, press down with the damp cloth and rub gently over the fabric in circular movements. If the stain does not come off completely (especially dried in stains) repeat the process as required.

### MAINTENANCE

For routine maintenance of your fabric, we recommend that you vacuum the entire surface area regularly. You can use a normal home vacuum cleaner with a brush fitting.
