Welcome to Rest Assured

The importance of your choice of mattress can never be underestimated – your hotel's reputation rests on it.

The right mattress is an investment in your guests' health and wellbeing, providing them with the support and comfort they need to sleep well whenever they stay with you.

Whether you run a boutique hotel or a smaller B&B, our handcrafted mattresses are designed to reflect your level of service and attention to detail by offering exceptional quality, durability and comfort for your guests.

At Rest Assured, we work hard to have a positive impact not only on your business, but also on our planet. That's why every Rest Assured mattress is handcrafted from natural and sustainable materials. Our mattresses are free from foam and have undergone extensive fire and fit-for-purpose testing to ensure comfort and safety for every sleeper.

Naturally hypoallergenic, our mattresses are treated with our anti-dust-mite and anti-bedbug treatment, Smartshield™ making for a cleaner and fresher sleeping environment for all your guests. And all our mattress can be fully recycled at end of life, reducing waste to landfill.

We put premium, handcrafted comfort within easy reach.

The ingredients for the perfect night's sleep.

125 years' experience goes into making every mattress supremely comfortable. All handcrafted with natural, sustainable materials and expert craftsmanship, to give your guests the perfect eight hours.

*Single sided construction

Designed with housekeepers in mind to eliminate heavy seasonal mattress turning, without compromising durability and fully tested to guarantee superior support and comfort.

*Zoned Pocket Springs

Scientifically proven to improve spinal alignment and posture by adjusting to the sleeper's body weight, whilst providing ease of movement for an undisturbed night's sleep.

*SmartShield™

A skin-safe treatment designed to eradicate bed bugs and dust mites, improving mattress hygiene and longevity.

Why we use British Wool

Sustainably sourced Cheviot wool.

All of our mattresses are handcrafted with layers of British wool. We select the finest wool from UK hill breeds such as Cheviot as their soft but sturdy coat has natural body and bounce, making it perfect for mattresses. The secret lies in the crimp; this unique, helical crimp means it has natural elasticity and stretch, whilst retaining its shape over time.

The crimp traps pockets of air to aid both warming and cooling effects on the body, regulating your temperature through the seasons whilst being highly breathable. Our wool carries 'The Shepherds Crook' logo, which means that the British Wool Board have stringently checked and audited the yarn at every stage of the supply chain to verify its authenticity and is fully traceable back to British sheep farmers.

For more information, visit britishwool.org.uk

Our independently accredited testing facility

Our on-site laboratory is unique to the bed industry and the only one of its kind in the UK.

It is a SATRA independently accredited testing facility, which has an ISO 9001 2015 certificate Management system and is also registered with the British Standards Institute. Put simply, this means we have been testing our products for over 30 years to the highest fire and safety requirements.

We test all our products and materials beyond regulation standards for flammability and fitness for purpose and we routinely test all of our products and raw materials to verify the quality and consistency of the products we make.

Flammability testing beyond compliance

We undertake a wide range of tests on our products in relation to different fire safety regulations. We test all our hospitality products to ensure they exceed the fire requirements for hotel use. All mattresses, bed bases and headboards made for hospitality are tested to BS7177, source five, medium hazard.

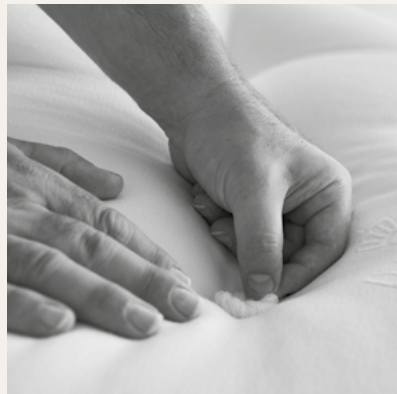

Fitness for purpose testing

Another role of our laboratory is to verify fitness for purpose of our finish products. We undertake many tests to gain accurate data on wear and tear, sagging, settlement, movement of fillings, and unfit failure, to ensure we produce the highest quality product.

Marketing leading innovation

Our state of the art laboratory enables us to undertake sleep research work in order to continuously innovate our products, by establishing the science behind sleep. This includes pressure mapping, analysing spinal alignment and thermal imaging.

Sustainability

Doing more with less: Designed with purpose to reduce waste.

Our mission is to create quality sleep solutions whilst also being mindful of the impact on the environment and people. Whether that be through sustainable product options for the industry, or logistics - such as taking away our packaging for recycling or by providing our mattress recycling service for your old beds, you can be sure we're thinking about our planet every step of the way.

We are proud to be a carbon neutral business and have won a number of awards for our sustainability. Through sustainable product development, progressive work practices and partnerships with charities and societies, we are determined to make the world a greener place. We believe that every aspect of our work should reflect our commitment to sustainability. That's why even our brochures are created with thought and care. We use recycled paper to ensure that our materials are as eco-friendly as possible.

The last few years have been significant for us in our achievements; since the release of our ESG Impact report in 2021, we now have an emission reduction and Net Zero by 2040 plan validated by Science Based Targets. We're also proud to be SEDEX members which audits us on ethical trading initiatives and have successfully passed a Furniture Industry Sustainability Programme audit again this year.

As the UK's most trusted sleep brand, we only source FSC timber and use Global Recycled Standard polyester fibres and CertiPUR foams and continue to drive industry-leading innovation by adopting eco-design principles, and keeping recyclability of all materials in mind.

First class service, from delivery to recycling.

Committed to excellent service every step of the way.

We pride ourselves on our excellent service for our clients, with a dedicated delivery fleet and an expert installation team, we have a variety of delivery options to suit you. We carry out site visits and audits to ensure the best advice is offered to meet your exacting needs for your project.

As part of our commitment to the environment, we offer a mattress recycling service where we can remove old mattresses and beds from your hotel and take them away to be recycled.

We are proud to work with our recycling partner, who process thousands of mattresses a week from their base in Darwen – just around the corner from our factory.

All of the mattresses we recycle are deconstructed into their original components and are recycled, repurposed or reused in other industries such as insulation, carpet underlay and furniture padding. Nothing is re-sold as second-hand, and nothing is sent to landfill.

Full manufacturer's guarantee

Our peace of mind pledge to you.

At Rest Assured we take pride in the quality and durability of our products.

We know that reliability and peace of mind matter to our hospitality customers, that's why we offer a full 5-year manufacturer's guarantee on all of our mattresses, upholstered divan beds and headboards.

Protect your investment with our hospitality protector collection

Developed for hotel use, our anti-allergy, mattress and pillow protectors are essential for prolonging the life of your bedding products, as well as providing a clean, sleeping experience for your guests, without compromising our mattress features.

British Allergy Foundation approved

Anti-allergy hollowfibre actively protects against bacteria and dust mites, which helps to prevent allergies for a restful night's sleep. Ideal for allergy and asthma sufferers.

Soft touch microfibre cover

The soft touch cover adds another layer of comfort, whilst also being noise free, providing a quiet and cosy sleep experience.

Quilted hollowfibre filling

Filled with little pockets of hollowfibre, the protector helps to add an extra layer of cushioned comfort to your guests' mattress or pillow.

Breathable surface

Our protectors are made from breathable materials, offering guests a refreshing and comfortable night's sleep.

Tried and tested

Protect your investment, whilst not compromising on the benefits of your mattress.

Anti-allergy fibres

Scientifically proven to reduce or remove allergens, as well as actively protecting against bacteria and dust mites, the anti-allergy fibres help to keep mattresses and pillows fresh and clean.

120gsm microfibre cover

Responsive fabric helps to wick away moisture, keeping the mattress fresher for longer. A fitted skirt encases the side of the mattress too.

Waterproof layer

The layer sits within a 75gsm undercover which helps to protect your investment, but does not interfere with the mattress performance. This layer prevents stains, spillages and heat sweats from reaching the mattress.

Two year guarantee as standard, for extra piece of mind.

Machine washable at 60 degrees for easy care.

Our promise

1 We're proud to be the UK's most trusted sleep brand

We're proud to be part of the UK's most trusted bed brand as voted for by the British public and a Superbrand for the 15th year running. We're committed to investing, innovating and producing quality products to make sure we continue leading the way.

2 Excellent dedicated customer service

Our knowledge and expertise can guide clients every step of the way, whether that's helping with a full consultation process or simply dropping off your beds! Just let us know and we'll be here to help.

3 Committed to ESG and Sustainability

We're dedicated to having a positive impact on the planet and know how important this is to our hospitality customers and their guests. We will always ensure our products and service are created and delivered in a responsible and ethical way.

4 Backed by science

We understand the science of sleep and the importance of getting a good night's rest. Our in-house sleep scientists are continually researching and innovating to make sure your guests get the sleep they need to start the day right.

5 Handmade in the UK

We have over 100 years of heritage behind us, and we're extremely proud that all our products are made in the heart of the UK, with the majority of our materials being locally sourced*

*over two thirds of our mattress, bed base and headboard components are sourced from suppliers within a two hour radius to our factory in Lancashire
