AGUA

PERFORMANCE UPHOLSTERY FABRICS

Contract Vinyl and Faux Leather Collections

Fabric selections from these Agua ranges:
Alberta, Argentex, Aries, Furnisoft Breathable, Lunar, Mystique, Paint Pot, Parody, Parody Linen, Stretch and Taurus

Contract Vinyl and Faux Leather Collections

This is only a small selection of our complete range of over 1,000 performance upholstery fabrics.

This shade card is a compilation of Agua Fabrics main vinyl and faux leather products, brought together for easy reference to help customers see a broad selection of our ranges in one place.

If you would like to search for more fabrics, place orders, request larger samples or you require individual shade cards for any of our ranges you can contact us via our website.

Technical Information

- We recommend a minimum of 32 stitches per 10 cm (8 stitches per inch) and seams must have a minimum 12mm (0.5") bite on the fabric.
- Can be stitched, tacked and glued. Cannot be heat welded.
- Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.
- Fabrics can be colour co-ordinated with other Agua collections to produce stunning dual textured finishes.
- Bespoke colours can be produced subject to minimum quantity orders.
- Technical specifications may be amended, please check for the latest information.
- Please ask if you require a sample of the current batch available but be aware that stock can move quickly.

Fabric Care

- Poorly fixed clothing dyes, e.g. denim, will cause permanent staining. Most stains can be removed using cold/warm water and a clean microfibre cloth.
- Use a vacuum cleaner or soft brush to remove dust and solid particles.
- Wipe frequently with a damp cloth to maintain the appearance of the fabric.
- Remove all stains immediately before they set. All spillages should be removed immediately with a clean absorbent cloth.
- If soap based cleaners are used, all soap residues must be rinsed from the fabric.
- Can be steam cleaned in situ.
- Do not machine wash or dry clean.
- Can be cleaned with mild Hypochlorite solutions (10,000 ppm of available chlorine) e.g.: Haz Tabs, Chlor-Clean. Continued use may cause discolouration and surface damage.
- Always try cleaning products on a hidden piece of fabric to test suitability.
- Do not use: solvents, abrasives, chemical agents, waxes or polishes as this will damage the surface of the fabric.
- Do not use marker pens on the back of the fabric.
- Please refer to the individual Collector's Technical Specifications PDF download on the Agua website for further details.

Our Environmental Policy

Our products have always been phthalate free and Reach* compliant. Our processes are non-toxic and the methods used during manufacture and finishing ensure that potentially hazardous accidental cross contamination is minimised to the greatest degree possible. All our fabrics meet the stringent Oeko-Tex**

standards, regardless of origin, so are free from harmful chemicals and safe for human use.

* Registration, Evaluation, Authorisation and Restriction of Chemicals (EU regulation: 18th December 2006)
** See more: www.oeko-tex.com
