Page 136 - 137

**PHONIC LOW WITH POWER MODULE**  
Page 142 - 143

**HEIGHT ADJUSTABLE TABLES**  
Page 204 - 207

# OUR PHILOSOPHY

**Our philosophy is simple – people are important. Whether it's the people using our products, the people selling them or the dedicated team working behind the scenes – people are at the heart of our company.**

We're not your average business and this is because we make sure people are at the heart of our company. This is something that will never change; our customers and our employees will forever remain the most important part of our business. We care about you and your needs which is why we work hard to source quality products for our customers across the UK and Europe. We also take a great deal of pride in our team of workers who help us make it happen. With a firm focus on service and support, we provide a variety of office seating, desking, storage, conference and training furniture, exclusively through the trade. We also offer a selection of delivery services to match our customers' needs.

## BCFA MEMBER

We belong to the BCFA (British Contract Furnishing & Design Association) which is the trade association for the British contract furnishing industry. As members of the BCFA, we remain committed to achieving higher standards in both the design of our products and the services we offer.

## ENVIRONMENTAL POLICY – BS-EN ISO14001:2015 CERTIFIED

We care about the environment and to show this we regularly evaluate our procedures and implement new strategies to reduce our environmental footprint. We measure, manage and control our environmental impact in accordance with being certified to ISO 14001:2015.

## GREENGUARD POLICY

Where you see the Greenguard logo, you can relax in the knowledge that the product line has earned the Greenguard Certification Program issued by the Greenguard Environmental Institute. This assures that products designed for use in office environments and other indoor spaces don't exceed the strict chemical emissions limits.

## GUARANTEE

Our products carry a 5 year component guarantee as standard, unless the product information details state otherwise. Not only that but all upholstery is guaranteed for 2 years. Our standard component guarantee applies when the product has been used for the purpose intended and in line with product use recommendations. If a replacement is needed due to normal wear and tear, accident, improper care or use, negligence, or a natural breakdown of colours and materials over extended time and use, then unfortunately it is not covered under our guarantee.

## BS EN ISO 9001:2008 CERTIFIED

Our Quality Management system is compliant to BS EN ISO9001:2008. This ensures that all of our products, processes and systems are monitored, measured and regularly go through management review ensuring compliance with the regulatory requirements of this International Quality Standard.

# END TO END SOLUTION

## 24HR DELIVERY

Our standard delivery gets your order to you the very next day using our reliable, nationwide transport partners. However, where you see the adjacent MTO logo, this means that the product is made to order and has an extended lead time.

## UK UPHOLSTERY AND ASSEMBLY

An Unlimited Fabric service is on offer to you, where any fabric of your choice can be selected for your order. Quality checks are carried out by our experienced staff throughout the production process to make sure your order is of the highest standard.

## ASSEMBLED CHAIR DELIVERY

Put the kettle on and put your feet up – we can deliver our chairs to you fully assembled and bagged.

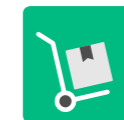

## SPACE PLANNING

Our furniture library is available for use in space planning packages to help you design the perfect environment.

## BESPOKE PRODUCT RANGES

Don't just follow the herd, dare to be different with some bespoke items. We're able to commission bespoke designs to match most specifications.

## DELIVERY AND INSTALLATION

We're able to deliver and install our products anywhere in the UK and Ireland to help make life that little bit simpler. Our experienced engineers are available to support larger installations.

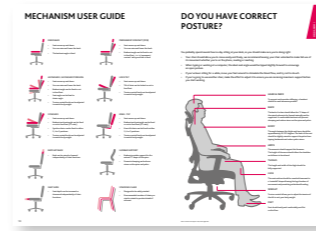

## SITE ENGINEER SUPPORT

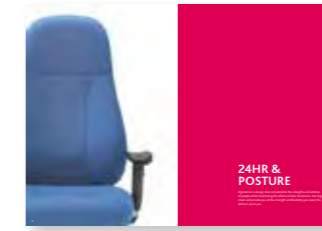

If any after sale issues arise, we have some helpful site engineers who will visit the customer and correct any problems they may have at a time to suit.

# MECHANISM USER GUIDE

# DO YOU HAVE CORRECT POSTURE?

## FIXED BACK

- Seat moves up and down.
- You can raise and lower the back.
- The backrest angle is fixed.

## PERMANENT CONTACT (PCB)

- Seat moves up and down.
- You can raise and lower the back.
- Backrest angle can be fixed or set to free float - i.e. in 'permanent contact' with your back is fixed.

## ASYNCHRO / ASYNCHRO TORSION

- Seat moves up and down.
- You can raise and lower the back.
- Backrest angle can be fixed or set to free float.
- Seat angle can be fixed to desire angle.
- Torsion control knob can be adjusted to match body weight.

## LOCK TILT

- Seat moves up and down.
- Tilt of chair can be locked or set to free float.
- Torsion control knob can be adjusted to match body weight.

## SYNCHRO

- Seat moves up and down.
- Backrest and seat angle can be fixed or set to free float (2:1 ratio).
- Synchro chairs can be fixed in either 3, 4 or 5 positions.
- Torsion control knob can be adjusted to match body weight.

## KNEE - TILT

- Seat moves up and down.
- Backrest and seat angle can be fixed or set to free float (2:1 ratio).
- Knee tilt chairs can be fixed in either 3, 4 or 5 positions.
- Torsion control knob can be adjusted to match body weight.

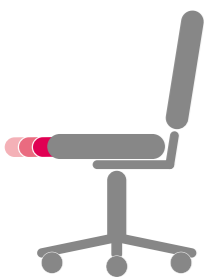

## RATCHET BACK

- Back can be raised or lowered independently of chair functions.

## LUMBAR SUPPORT

- Backrest provides support for the natural 'S' shape of the spine.
- Prevents slumping and reduces stress on the spine and pelvis.

## SEAT SLIDE

- Seat depth can be increased or decreased independently of chair functions.

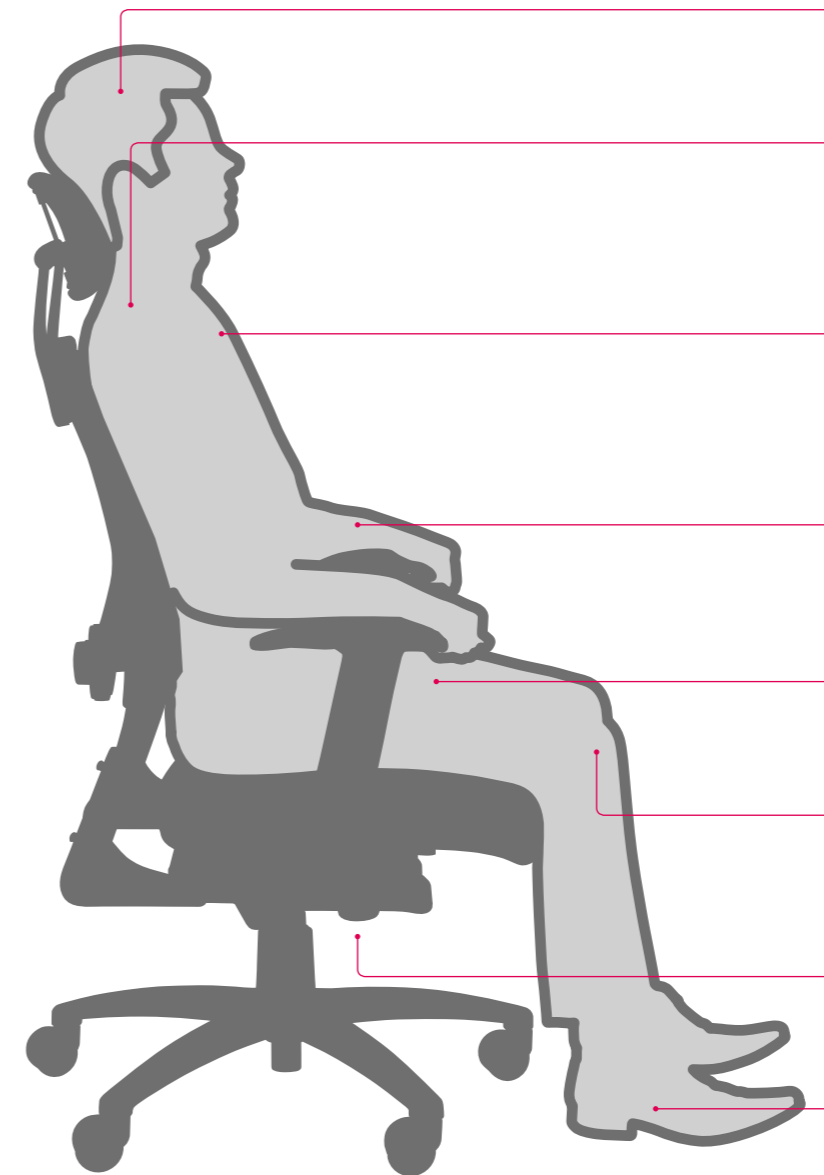

## STACKING CHAIR

- Designed to be safely stacked.
- Recommended number of chairs per stack is stated in product details if relevant.

You probably spend several hours a day sitting at your desk, so you should make sure you're doing right:

- Your chair should allow you to move easily and freely; we recommend leaving your chair unlocked to make full use of its movement whether you're on the phone, reading or reaching.
- When typing or working at a computer, the ideal seat angle would be tipped slightly forward to encourage an open posture.
- If you've been sitting for a while, move your feet around to stimulate the blood flow, and try not to slouch.
- If you're going to use another chair, make the effort to adjust it to ensure you are receiving maximum support before you start working.

## HEAD & NECK

To prevent neck muscles stiffening, a headrest should be used whenever possible.

## BACK

The back of a chair should allow the 'S' shape of the spinal column to be formed naturally and be supported. A comfortable backrest will prevent slumping and reduce stress on the spine and pelvis.

## BODY

The angle between the thighs and torso should be approximately 90-105 degrees. The back of the seat should be slightly raised to support the pelvis from tipping backwards and reduce pelvic stress.

## ARMS

The armrests should support the forearms. The height of the arms should allow the shoulders and elbows to be relaxed.

## THIGHS

The length and width of the thigh should be fully supported.

## LEGS

The seat cushion should be rounded downward in a 'waterfall' shape allowing the legs freedom of movement and permitting unhindered bending.

## WEIGHT

Torsion control allows you to adjust the tension of the tilt to suit your body weight.

## FEET

Feet should easily and comfortably rest flat on the floor.

## 24HR & POSTURE

Ergonomics is a design that complements the strengths and abilities of people, whilst minimising the effects of their limitations. Our Ergo chairs will provide you with all the strength and flexibility you need, the ability is up to you.

## FEATURES

- FIRA certified to BS 5459 for 24 hour use
- Infinitely adjustable asynchro torsion mechanism
- Adjustable arms as standard
- Ratchet back height adjustment

# ENDURANCE 24HR

# WORK CHAIRS

Our technical chairs are designed to accommodate those who need to alternate between sitting and standing easily. No, we're not talking about fidgety people, we're on about the factory workers and draughtsmen of the world.

## FEATURES

- Hard wearing polyurethane seat and back
- Easy to clean
- Choice of draughtsman kits

## FACTORY

Assembly lines, science labs and workshops are just a handful of environments where these chairs are used. Sturdy, hard wearing and made of polyurethane, this range of products can survive in any environment.

# CONFERENCE

We have a variety of modern designs that serve a multitude of purposes: meetings, training and conferences to name just a few. Our stackable and foldable chairs will allow you to clear any space before you can say 'Powerpoint presentation'.

# CLUB

A well established range for multi-purpose use in both public and private sectors. These chairs have been tested to BS EN 15373: Level 2, making them structurally suitable and sufficiently stable for contract use. A wide range of accessories are available including writing tablets, linking devices and arms.

# ACOUSTIC SOLUTIONS

**166** What is Acoustics?

**168** Acoustic Solutions

# WHAT IS ACOUSTICS?

## The science of sound and understanding how sound travels.

### 1 - WHY THE CONCERN?

Noise pollution is background sound that can be annoying, disruptive and sometimes harmful. It's something we experience everyday, for example, when we're walking along a main road or we're trying to place an order in a busy café. Often it's not sound that we strictly notice, but when we do it can lead to frustration pretty quickly, especially in the workplace.

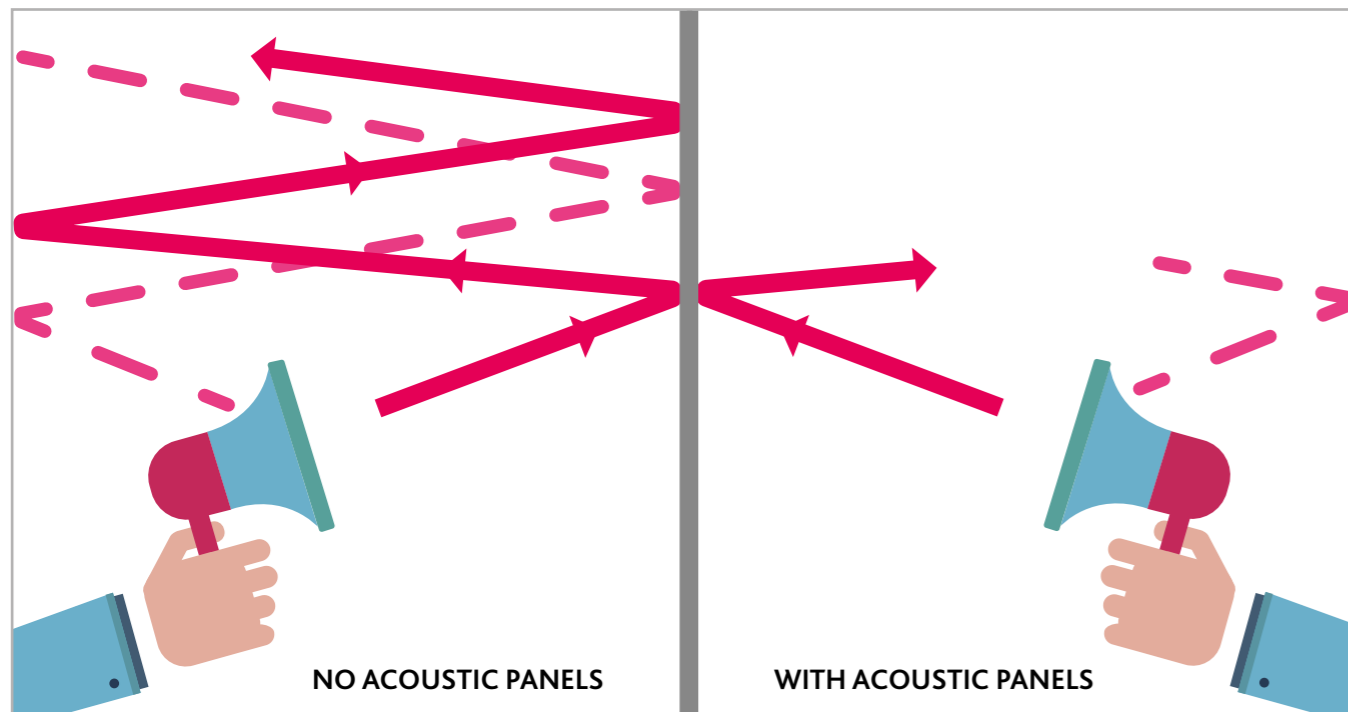

At work, noise pollution can be at its worst. The combination of telephones ringing, office equipment being used and multiple people talking, can interrupt your focus and leave you feeling tired and irritable. What's not helping acoustic matters is the rise in popularity of open plan offices and collaborative communal areas. This means fewer traditional walls and greater numbers of people working together in close proximity. All of these factors add up to more noise pollution in the workplace.

### 2 - THE SCIENCE

Noise pollution is reduced when reverberation time is kept as short as possible. Reverberation time is the time it takes for a sound to die down.

If someone were to stand in a room and shout, that sound will bounce off the hard wall and travel back into the room. If that person were to shout again whilst the first sound was still dying down, then both sounds would be heard at the same time but would be conflicting with each other.

However, if the wall were covered in acoustic wall tiles it would be a different story. Some of the first sound would be absorbed by the soft acoustic panels, so the time it takes to die down would be reduced. Therefore, by the time the person shouted for a second time and the second sound was produced, the first sound would have died, meaning the sounds wouldn't have to compete.

### 3 - THE RESEARCH

Extensive research has been carried out to prove that this constant noise is distracting, reduces concentration, affects health and well-being, and in turn affects productivity. After 10 years of research, The Centre for the Built Environment (CBE) have concluded that poor acoustics is the number one cause of dissatisfaction in the workplace. Not only that but it also affects employee performance more than any other factor.

They specifically found that sound distractions:

- Shift our attention so that our focus is reduced;
- Make it harder for us to concentrate which can increase our stress levels;
- Make us abandon a current task to deal with the interruption;
- Ruin our train of thought so that we have to regain concentration.

The Building Owners and Managers Association (BOMA) and the University of Maryland conducted a survey of 400 Business Managers. They found that a persons' productivity could increase by an estimated average of 26% if noise was kept under control.

Consider it this way... If your office had a leak it would be dealt with immediately. Just because you can't see and feel sound in the same way you can a water leak, doesn't mean it's not as, distracting to the workplace. Therefore, an investment in acoustic solutions can improve your efficiency and the well-being of your staff, as well as show you a return on your initial investment in just a matter of months.

### 4 - CASE STUDY

Here's an example of just how much background noise can affect your business.

Research commissioned by Brother proved that it takes an average of 15 minutes to regain your concentration after being distracted from a difficult task by unwanted noise.

Therefore, if a company employs 200 staff and each person is interrupted 5 times a day for 15 minutes, a 14% reduction in productivity is recorded over an average 8 hour working day.

Let's say that the average annual salary is £20,000 per person, then noise interruptions add up to a loss of £625,000, or in other words, 30 people's annual salary.

This shows that you're likely to see a return on your investment in a number of months, rather than years.

$200 \times £20,000 = £4,000,000$   
 $5 \times 15 \text{ min} = 1\text{hr } 15\text{min}$   
 $£20,000 / 250 \text{ days} = £80\text{pp pd (per person per day)}$   
 $£80 / 8 \text{ hours} = £10.00 \text{ ph}$   
 $1\text{HR } 15 \text{ mins} = £12.50 \text{ pp pd (per person per day)}$   
 $£12.50 \times 250 = £3,125 \text{ pp py (per person per year)}$   
 $£3,125 \times 200 = £625,000$

**£625,000 LOSS PER YEAR**

### 5 - THE SOLUTION

A number of different products can be used to help achieve acoustic comfort like sound absorbing surfaces such as, acoustic ceilings, chairs, screens and floor finishes, along with acoustic barriers, partitions and masking systems.

Effective acoustics can be achieved using the **A,B,C** approach: Absorbing, Blocking and Covering.

**Absorbing:** Absorptive material + a high acoustical performance rating = an environment with better acoustics. Acoustic ceiling tiles and wall panels, carpeting, and soft furniture, will all help to absorb noise.

**Blocking:** Sound barriers interrupt sound paths. Sound absorbing screens can be placed strategically to block and prevent noise from travelling.

**Covering:** You can cover noise using a sound masking system so that noise cannot travel as far. Without masking, your voice can travel on average 40 feet, whereas this is reduced to just 20 feet with masking.

Correct application of the ABC rule can therefore lead to better acoustics in the workplace and a happier workforce who have improved concentration and are more productive.

### 6 - HELPFUL HINTS

People work in different ways and on different tasks and the office environment needs to be able to adjust to this. Certain things that are worth thinking about when you're in the office:

- Try to keep conversations to a minimum when you're in an open plan workspace.
- Hold meetings in a room where you can close the doors.
- Don't put your phone on speaker when you're in an open plan office.
- Keep phone conversations short or take long phone calls in an enclosed space.
- Be considerate of your audience – not everyone around you will want to hear about your weekend.
- Try not to interrupt people if they look like they're concentrating on something, either come back later or drop them an email.

## FEATURES

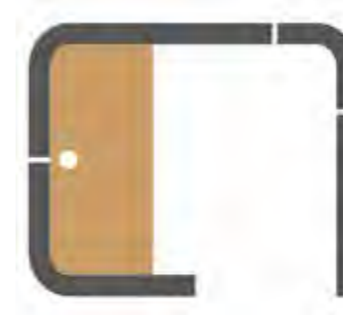

- Modular construction
- Variety of shapes and sizes
- Unlimited choice of fabrics

# ACOUSTIC WALLS

Open plan office design requires noise reduction and space division. Our acoustic walls perform both functions in an elegant, contemporary and desirable way. Being modular, the walls can be constructed to any size and shape with a fabric finish of your choice. Suitable for concealment of necessary amenities, the creation of meeting spaces or department division walls.

# FURNITURE

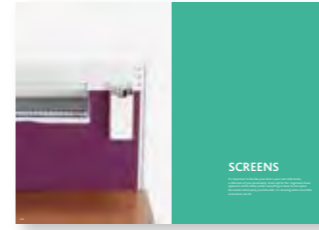

**178** Reception

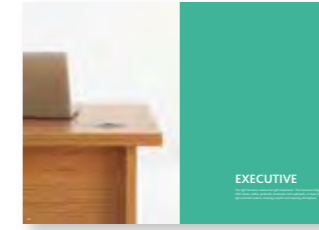

**182** Workstations

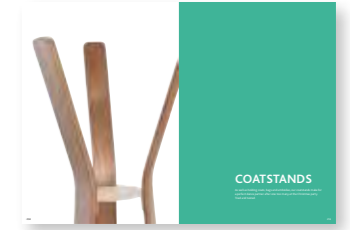

**228** Storage

**242** Screens

**250** Executive

**258** Coatstands

# RECEPTION

Greeted by a comfy sofa and a professional reception desk, we brighten any first impressions. Sadly we cannot provide the friendly receptionist...but I'm sure you've got that covered.

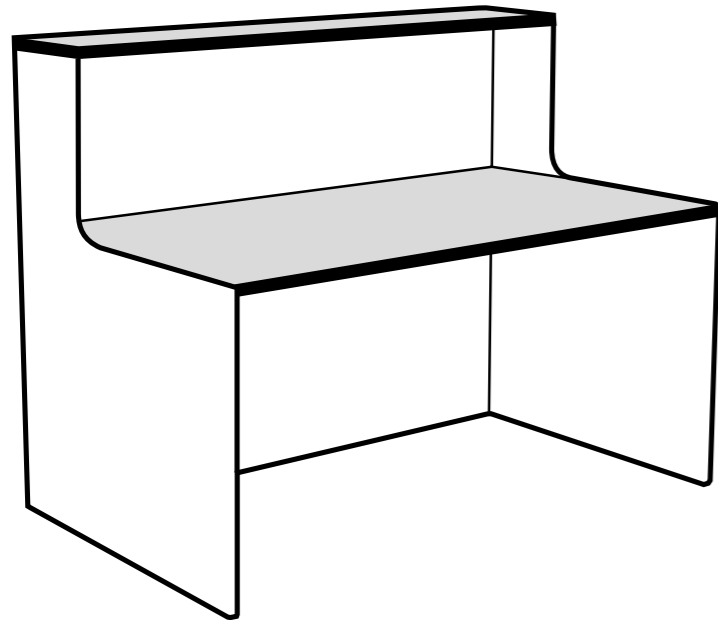

# RECEPTION MIX & MATCH

We have designed our reception units to allow you to customise every aspect from finish to lighting. Simply choose your top and side colours to create your base unit - feel free to be adventurous as they don't have to match. Enhance your reception further by adding a splash of colour through the lighting unit or an extension for that extra paperwork.

## FEATURES

- Modular unit
- D-End extension
- Concealed lighting option available with multiple user settings
- 6 finish options

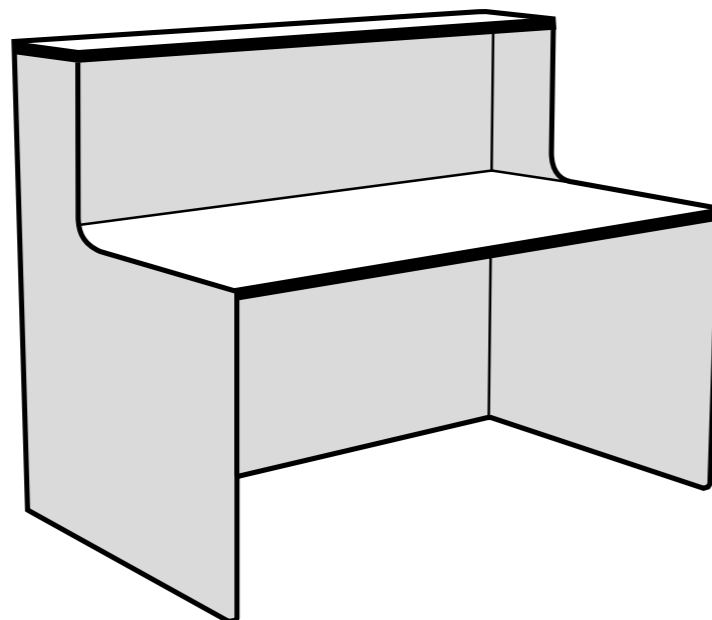

### PICK YOUR TOPS

Box A contains the 2 top panels highlighted and is available in 1400/1600 widths and 6 colour finishes.

### PICK YOUR SIDES

Box B contains the side and front panels highlighted and is available in 1400/1600 widths and 6 colour finishes.

# RECEPTION

A stand-alone reception unit colour matched to our extensive furniture ranges. Available with an extension top, if you need that little extra space, and a lighting unit with multiple settings for those staff parties.

## FEATURES

- Quick installation
- Low component inventory
- Complementary range of screen options
- Available in 6 desk top finishes and 2 frame colours

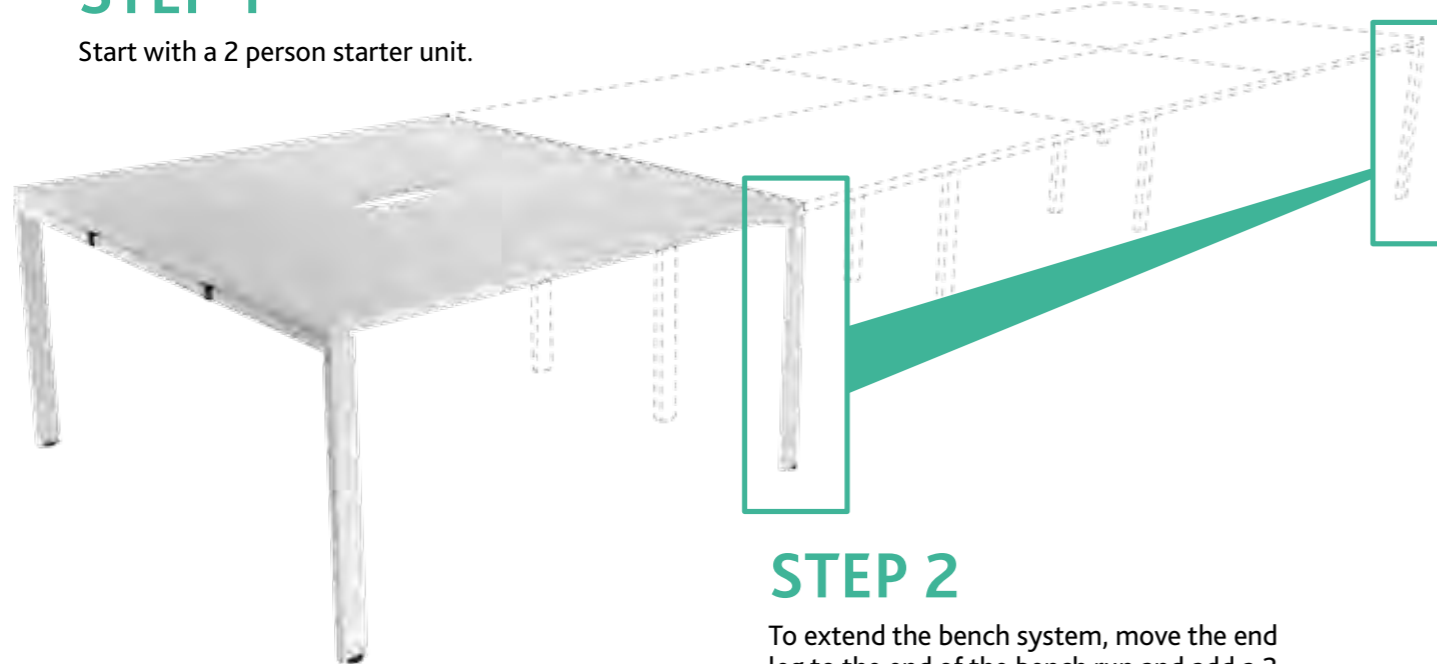

# BENCH

## One size truly can fit all with our new modular bench desking range

- More cost effective use of valuable real estate floor space with smaller footprints and shared desktop space.
- Cost per position reduction due to shared componentry.
- Reduced environmental footprint.

### STEP 1

Start with a 2 person starter unit.

### STEP 2

To extend the bench system, move the end leg to the end of the bench run and add a 2 person extension

### STEP 3

Add in the desired number of extension desks

e.g. to create a 8 person desk it uses a 2 person unit and 3 extension units.

### THE SOLUTION

- Scalloped and 62mmØ cable port desktop options.
- Desktops available in 800mm and 780mm depths. Please note screens must be used with 780mm desktops
- Horizontal and vertical cable management options.
- White or silver leg finishes available, other finishes available on request.
- Desktops available in 6 stocked finishes.
- Complementary storage, meeting and return units.

# STORAGE

The mountain of paperwork you keep meaning to file, the plant you always forget to water or even that tin of soup you keep promising yourself to eat, there's always a reason for needing more storage. And now, with our new One Storage solution, you can tailor it to suit any office.

# PEDESTALS

A selection of storage solutions ranging from fixed pedestals to filing cabinets. Fully lockable, with wooden inners and metal/accuride runners, this storage is both stylish and practical. Available in the same range of colour finishes as our Start, One and Bench workstations.

# SCREENS

It's important to feel like your desk is your own little home, a reflection of your personality. Some opt for the 'organised chaos' approach, whilst others prefer everything to have its own place. No matter which party you fall under, it's amazing what a few little accessories can do.

## FEATURES

- Variety of size options available to fit all desktop sizes
- Unlimited fabric finishes
- Choice of silver or white frame finishes
- Toolrail accessories available

# ONE SCREENS

Create your own personal space through our selection of desk screens. Ranging from standard fabric desk screens, to toolrails that allow you to customize your storage through additional accessories.

# TITAN

**264** What is Titan?

**266** Titan

# WHAT IS TITAN?

We design & manufacture the toughest and finest range of classroom furniture in the world!

For many years children have sat on a wide variety of chairs that are inadequate for their needs and a classroom environment. A child will sit on a chair for up to six hours a day, over a period of 11 years or more. School furniture must therefore be durable, comfortable and easy to maintain. Titan Furniture is an award winning supplier, which manufactures premium classroom furniture with the aim to improve the safety and health of our school children. That's why we were the first UK manufacturer to meet new British ergonomic standards set out by the Technical Committee for Europe Cen/TC207.

Our chairs are designed to these standards which set chair dimensions, heights, angles and back support for every age group, so as to encourage good posture. Good posture not only means our children will be healthier, it also means they should be more comfortable and therefore they should be more attentive in class.

# OUR STANDARDS

Our range is covered by industry standards. All of our products are designed specifically for the unique postural needs of school children and the demanding environments of schools. The ultra-strong construction of all our furniture is designed to withstand high impacts and be anti-tamper, as well as being low maintenance. Our seating range comes in up to six different seat heights to suit different age groups. They are also available in a variety of colours to match your schools colour and to provide a stimulating environment.

## DESIGNED FOR CLASSROOMS

Our seating range comes in up to six different seat heights to suit different age groups, encouraging supportive posture. They are also available in a variety of colours to match your schools colour and to provide a stimulating environment.

## INDEPENDENTLY TESTED

All of our products are independently tested to British Standards for ergonomics, strength and stability. Ergonomics for schools BS EN 1729:1 Strength and stability for schools BS EN 1729:2

## ERGONOMICS

Our seating is produced in a range of sizes to best accommodate children of all ages. The chairs back angle promotes a positive S shaped spine, which reduces the risk of lower back pain.

## SAFETY

Designed for the needs of the classroom, our products are anti-tamper and low maintenance. All of our products have no pinch points or sharp edges that may cause injury, many chairs have an anti-tilt leg.

## ISO 9001

We comply with ISO 9001 quality control standards, ensuring our products and services are of the highest possible quality. This provides you with peace of mind during the entire ordering process and product life-cycle.

## RECYCLABLE

We are committed to helping deliver environmentally friendly products. All of our metal and plastic can be recycled to help you meet your recycling targets.

## STRENGTH

The ultra-strong construction of our premium furniture range is designed for the toughest classroom environments. Our range is built from highly durable polypropylene and super strong steel. All are independently tested for their strength and durability.

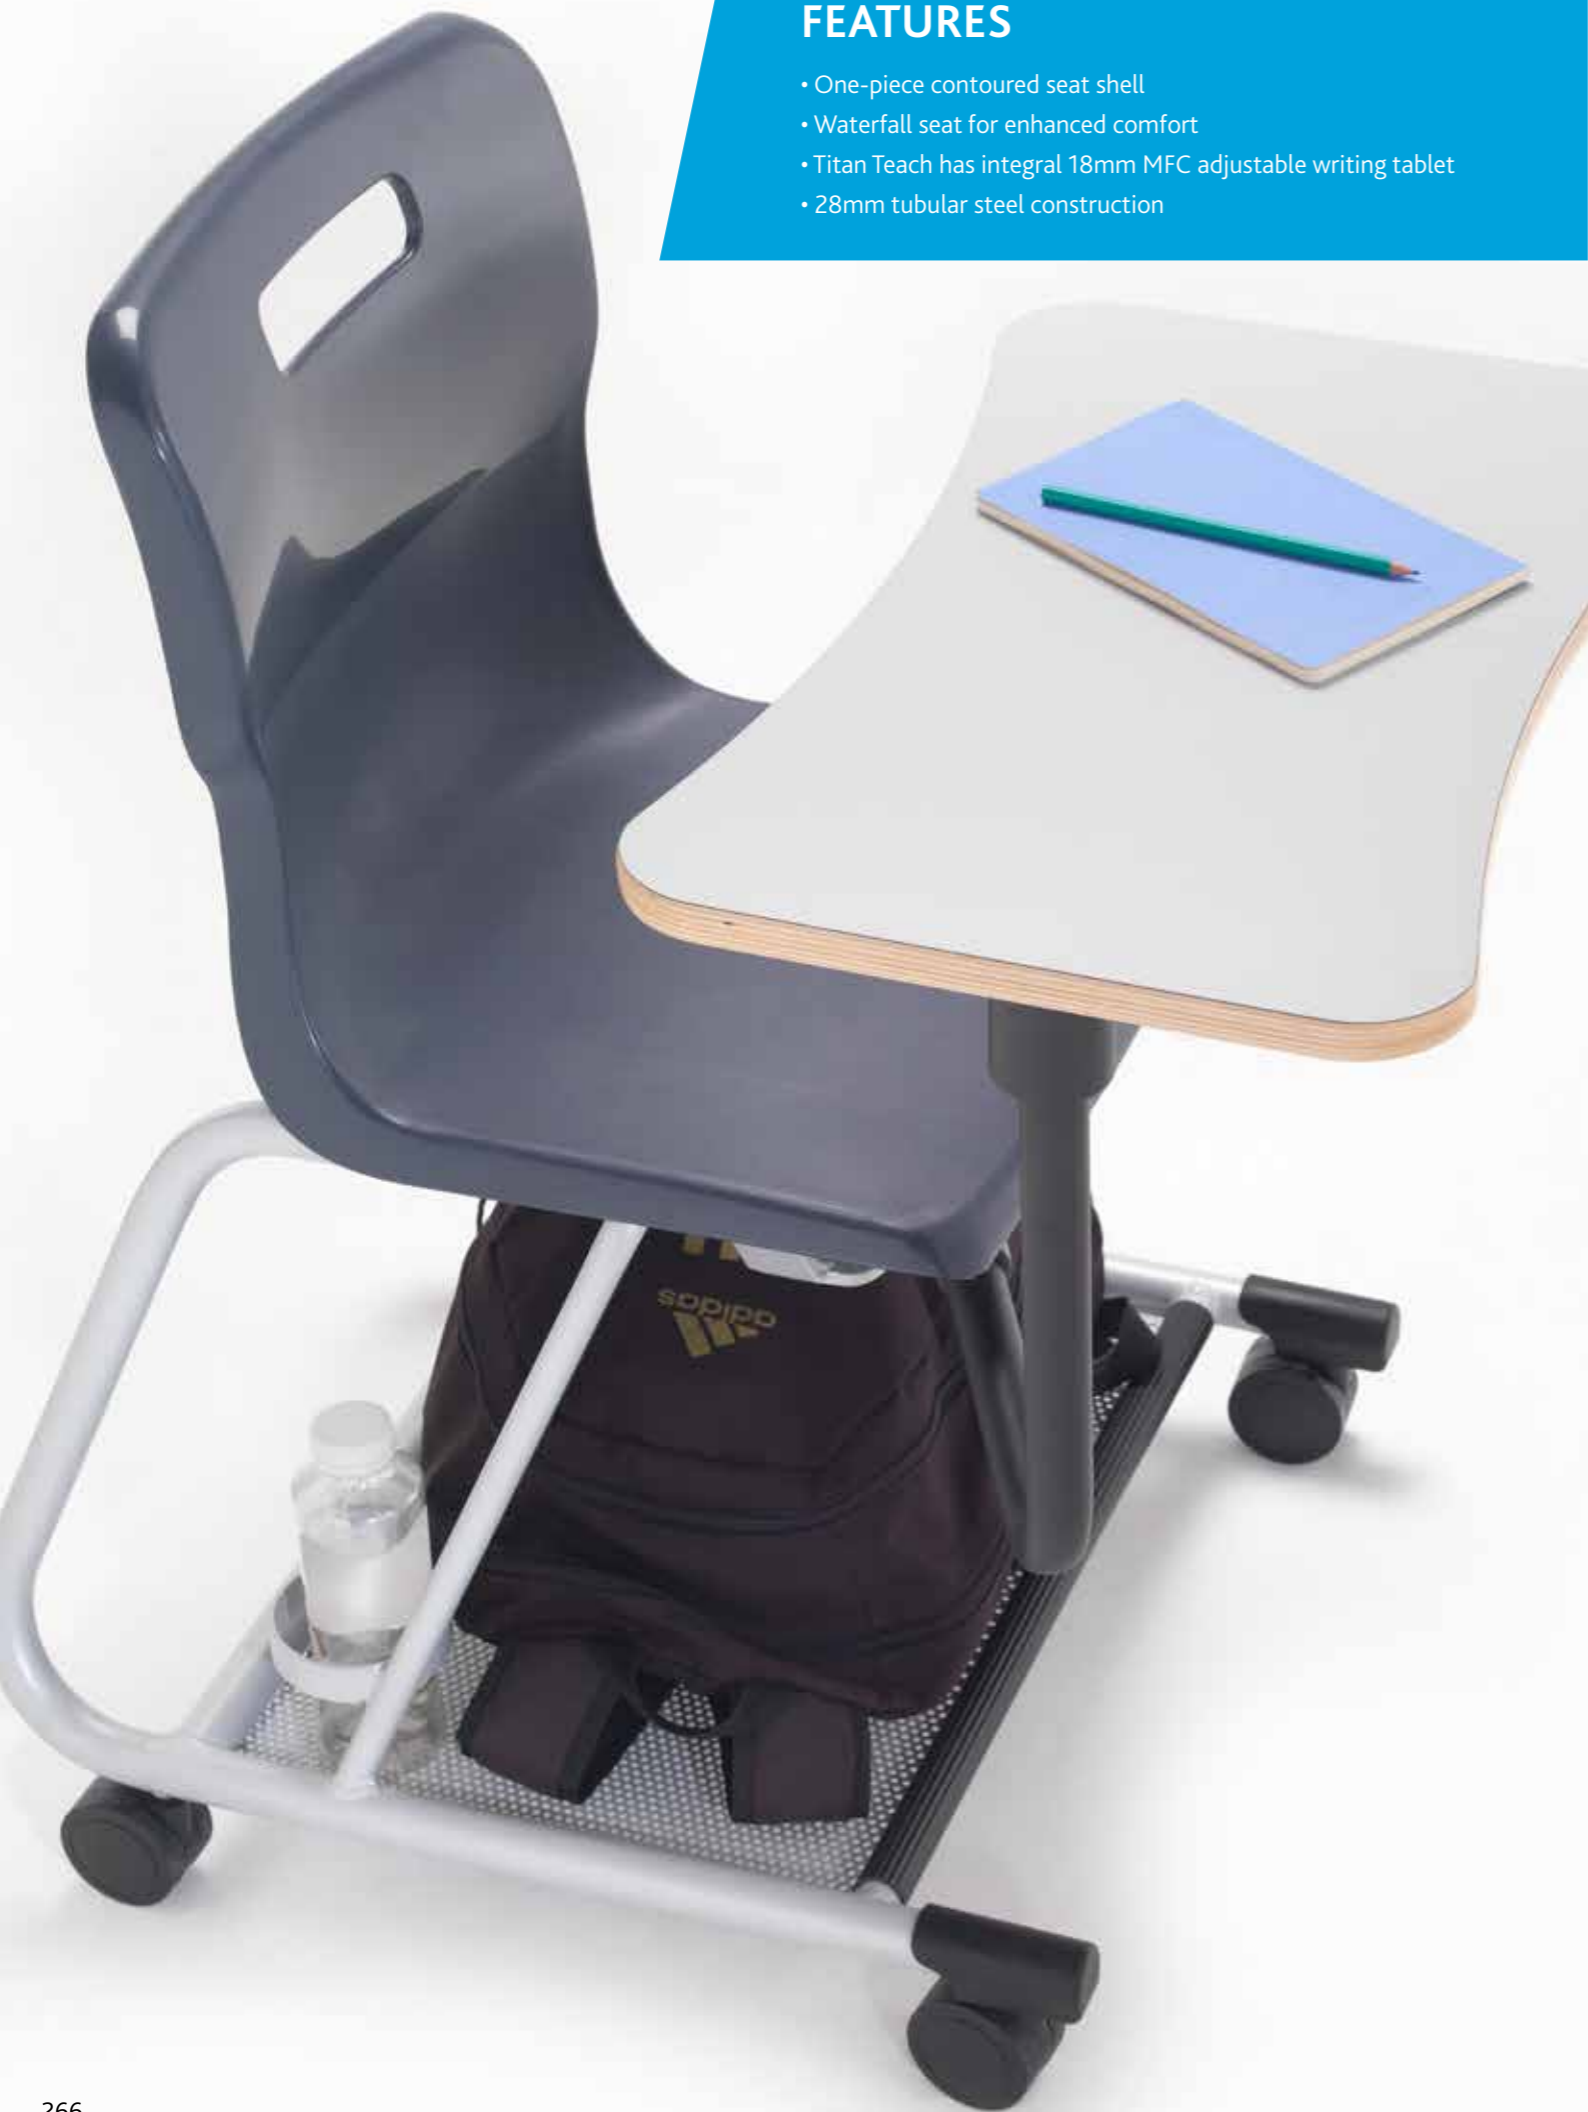

## LONGEVITY

We are confident in the quality of our products. Our whole range carry extensive guarantees, protecting you against the unlikely event of product failure. Our products are made from recyclable materials to help meet your recycling goals.

## FEATURES

- One-piece contoured seat shell
- Waterfall seat for enhanced comfort
- Titan Teach has integral 18mm MFC adjustable writing tablet
- 28mm tubular steel construction

# TITAN TEACH & MOVE

## FEATURES

- Suitable for wheelchair access
- Adjustable to all table heights
- Super strong sturdy cantilever leg

# EDUCATION TABLES

The unique Titan height adjustable classroom tables have been specially designed to withstand the toughest classroom environments, with a sturdy metal frame and an ultra-strong top. The tables are the perfect accessory for the Titan seating range, as each table can be set to meet the height of any of the chairs in the range.

TITAN

**T50 - SQUARE**

RRP: £170.00

Overall dimensions: D600 W700 H530 - 760

Adjustable to:

- 530mm** Suitable for ages 3 - 5
- 590mm** Suitable for ages 5 - 7
- 640mm** Suitable for ages 7 - 9
- 710mm** Suitable for ages 9 - 13
- 760mm** Suitable for ages 13+

**T55 - RECTANGULAR**

RRP: £220.00

Overall dimensions: D600 W1200 H530 - 760

Adjustable to:

- 530mm** Suitable for ages 3 - 5
- 590mm** Suitable for ages 5 - 7
- 640mm** Suitable for ages 7 - 9
- 710mm** Suitable for ages 9 - 13
- 760mm** Suitable for ages 13+

# INFORMATION & ACCESSORIES

Any chair purchased with these alternative accessory options may alter the overall listed dimensions of the product.

# FABRIC EXPLANATION

We are proud to work with a dedicated selection of the UK and Europe's longest established and best recognised upholstery fabric, PU, Vinyl and Leather manufacturers.

The range of manufacturers, finishes and price bands offers a solution for all specifications and budgets - please contact us for further details or assistance.

The fabrics offered within this section are a selection of the most popular within the market, and are suitable for applications ranging from operator/task seating, soft seating and for the upholstery of vertical surfaces, such as desk mounted and floor standing screens (where indicated).

Where environmental credentials are a major consideration we are also able to source and recommend from a wide choice of environmental fabrics, made from recycled raw materials, or materials composed of rapidly renewable sources such as wool or innovative bast fibres from nettles, hemp or even recycled coffee sacks.

## UNLIMITED FABRICS

Where you see the above icon the product is available upholstered to your exact specification. Choose from multiple on-trend finishes to match your market place or corporate colour scheme, or simply something different to brighten up your business environment.

## FIRE RETARDENCY

The fire retardency or CRIB rating of a particular fabric measures its ability to resist ignition from an exposed flame. There are a variety of tests for the flammability of upholstery fabrics within the UK - we have listed a brief description of those applicable to our market below (please note this is not exhaustive; if further information is required please contact us).

**Low Hazard** - tested to BS7176:2007 Low Hazard fabric ratings are suitable for use within the general office environment

**CRIB 5** - Where a fabric has been treated and tested to standard it is suitable for most uses, particularly contract environments like hotels, where the impact of a fire can be serious.

**CRIB 7** - This is a more stringent test version of CRIB 5. Fabric that passes this test is suitable for more hazardous environments like prisons or offshore installations.

## PLEASE NOTE:

**Fabric Bandings** - Should your fabric of choice not be listed please contact our sales teams who will be happy to assist. Please ensure you check the suitability of your selected fabric for its application prior to ordering.

**Leather** - All leather fabrics are priced on application.

**Fabric Swatches** - We recommend that your final fabric selection is made based on a physical swatch only. Please note colour accuracy of printed fabric swatches is not guaranteed and is intended as a guide only.

Chieftain Fabrics are experts in vinyl upholstery. It is our only focus and we believe that for this reason, we are the best at what we do. We have specialised in the design and production of high quality performance fabric and contract upholstery for over 60 years.

With our unique mix of specialist expertise, innovative R&D and advanced materials, we produce an inherently better fabric.

We are constantly striving to keep up with ever changing technologies and we have the only fabric that has passed both the Tropical test and Crib 7.

**FABRIC BAND 3**

**Application**  
High traffic areas, stadia seating, restaurant, hotel, healthcare, prisons, high security environments etc.

**Characteristics**  
Surface : Phthalate free PVC  
Backing : Cotton/PES  
Weight : 705 g/m<sup>2</sup>  
Thickness : 1.10mm  
Bursting Strength : 1,200+kPa  
Abrasion : 300,000+ Martindale Rubs

**Flame Retardancy**  
BS5852 Ignition Source 7 - Crib 7 as standard  
BS7176 Medium Hazard  
S.I. 1988 No.1324 Schedule 4 and 5  
BS EN1021-1 and 2  
CS-25  
FMVSS 302  
IMO A 652 (16)

**Jungle / Tropical Test**  
ISO 1419 : 1995 Accelerated Aging Test

**Antimicrobial**  
JIS Z 2801:2000  
Independent testing has verified that Just Colour is effective at reducing the spread of MRSA, E.Coli, and other similar bacteria.

See Chieftainfabrics.com for further details and cleaning instructions

**FABRIC BAND 3**

**Application**  
Domestic application only - not suitable for contract use.

**Characteristics**  
Surface : PVC  
Backing : PES or Cotton PES  
Weight : 608g/m<sup>2</sup>  
Thickness : 1.00mm  
Bursting Strength : 1,000+kPa  
Abrasion : 40,000+ Martindale Rubs

**Flame Retardancy**  
BS7176 Low Hazard  
S.I. 1988 No.1324 Schedule 4 and 5  
BS EN1021-1 and 2

Bradbury Fabrics are proud British manufacturers of high quality woven upholstery fabrics suitable for many styles of seating, found in environments such as:- Offices, Public buildings, Hotels, Education, Restaurant and Healthcare. All of their collections are manufactured and available from stock for immediate use. Full colour cards or individual colour samples can be ordered for immediate despatch via the Sample Centre, by telephoning their offices on 01484 648182 or directly via the website [www.bradburyfabrics.com](http://www.bradburyfabrics.com).

### PYRA - FABRIC BAND 0

**Application**  
Upholstery fabric, suitable for task and operator style seating.

**Characteristics**  
Composition : 100% FR Polypropylene  
Weight : 220grms/mt2 +/-5%  
Abrasion : Tested in accordance with BS EN ISO 12947-1:1999 >30,000 Martindale cycles\*. Meets the requirements of BS 2543:2004, with a 5 year guarantee.  
Light Fastness : 5+ (ISO 105 – B02:2014)

**Flame Retardancy**  
BS EN 1021 -1:2014 (cigarette)  
BS EN 1021 -2:2014 (match)  
BS 7176:2007 Low Hazard

\*Martindale abrasion testing alone is not an appropriate indicator for the durability of this product. The heat generated by this test far exceeds normal practice and affects the constituent fibre. The robust performance of this product is proven in use with a 5 year guarantee of durability.

Additional colours are available, please contact [www.bradburyfabrics.com](http://www.bradburyfabrics.com) to view the full colour offering and also for any additional specification or cleaning instructions.

### FIZZ - FABRIC BAND 1

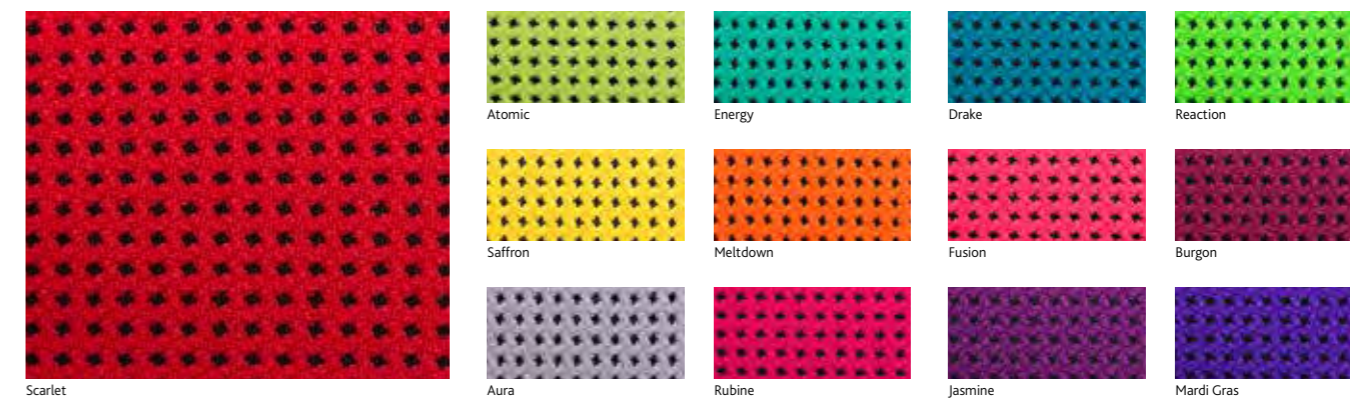

**Application**  
Upholstery fabric, suitable for task and operator style seating.

**Characteristics**  
Composition : 100% Polyester – non metallic dyestuffs  
Weight : 350grms/mt2 +/-5%  
Abrasion : Tested in accordance with BS2543 : 2004 to 80,000 rubs martindale, with a 5 year guarantee  
Light Fastness : 5 (ISO 105 – B02:1999)  
Fastness to rubbing : 5 (BS EN ISO 105x12:2002)  
Scale 1-5, 5 is best

**Flame Retardancy**  
BS EN 1021 -1:2006 (cigarette)  
BS EN 1021 -2:2006 (match)  
BS 7176:2007 Low Hazard  
BS 7176:2007 Medium Hazard  
BS 5852:2006 Ignition source crib 5

Additional colours are available, please contact [www.bradburyfabrics.com](http://www.bradburyfabrics.com) to view the full colour offering and also for any additional specification or cleaning instructions.

### OMEGA PLUS - FABRIC BAND 1

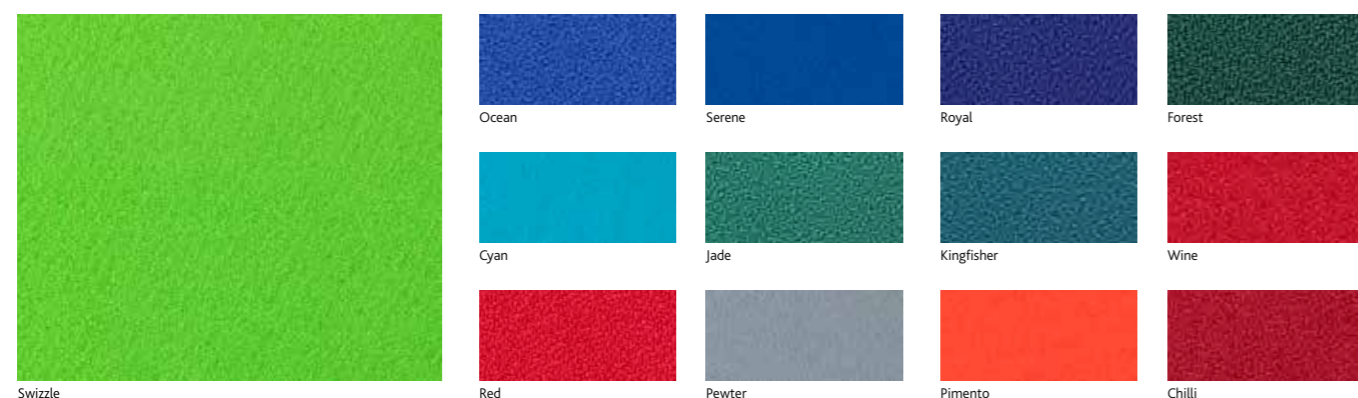

**Application**  
Upholstery fabric, suitable for task and operator style seating.

**Characteristics**  
Composition : 100% Polyester – non metallic dyestuffs  
Weight : 310grms/mt2 +/- 5%  
Abrasion : Tested in accordance with BS 2543:2004 to 100,000 rubs martindale and is supported with a 5 year guarantee.  
Light Fastness : 6 (ISO 105 – B02:1999)

Fastness to rubbing : 5 (BS EN ISO 105-x12:2002)  
scale 1 – 5, 5 is best

**Flame Retardancy**  
BS EN 1021-1:2006 (cigarette)  
BS EN 1021-1:2006 (match)  
BS 7176:2007 Low Hazard  
BS 7176:2007 Medium Hazard  
BS5852:2006 Ignition source Crib 5

Additional colours are available, please contact [www.bradburyfabrics.com](http://www.bradburyfabrics.com) to view the full colour offering and also for any additional specification or cleaning instructions.

### FLAMBLEND - FABRIC BAND 2

**Application**  
Upholstery fabric, suitable for many styles of seating such as, task, operator and also soft seating units.

**Characteristics**  
Composition : 45% Wool, 45% FR Modacrylic, 10% Nylon  
Weight : 414grms/mt2 +/- 5%

Abrasion : Tested in accordance with BS EN ISO 12947-2:1999 as modified by Annex F of BS 2543:2004 to 100,000 rubs martindale. Meets the requirements of BS 2543:2004 and has been graded SEVERE CONTRACT and is suitable for all types of upholstery applications, with 5 year guarantee.  
Light Fastness : 5+ (ISO 105 – B02:1999)  
Fastness to rubbing : Wet 4+ & Dry 4+ (ISO 105-x12:2002)  
Stain Repellance : Treated as standard with stain repellent treatment.

**Flame Retardancy**  
BS EN 1021-1:2006 (cigarette)  
BS EN 1021-1:2006 (match)  
BS 7176:2007 Low Hazard  
BS 7176:2007 Medium Hazard  
BS 5852:2006 Ignition source Crib 5

Additional colours are available, please contact [www.bradburyfabrics.com](http://www.bradburyfabrics.com) to view the full colour offering and also for any additional specification or cleaning instructions.

Batch to batch variations in shade may occur within commercial tolerances.

At Camira we've been weaving the fabric of the world for decades. We produce fabrics for spaces and places, from offices to schools, trains to buses, and shops to hospitals. We manufacture over 8 million metres of fabric a year so you're sure to have touched upon our fabrics either at work, at play or on the move. From our manufacturing plant, registered to ISO 9001 and 14001 standards, we make 8 million metres of fabric a year meeting international flammability regulations, celebrating colour, design, technical and environmental innovation.

## CAMIRA MAIN LINE FLAX - FABRIC BAND 6

**Composition**  
70% Virgin Wool, 30% Flax

**Environmental**  
Rapidly renewable and compostable.

**Abrasion Resistance**  
Heavy duty / 10 year guarantee  
Independently certified to ≥50,000  
Martindale cycles

**Flammability**  
EN 1021 - 1 (cigarette)  
EN 1021 - 2 (match)  
BS 7176 Low Hazard  
BS 5852 Ignition Source 5  
BS 7176 Medium Hazard  
BS 5867-2 Type B Curtains & Drapes  
UNI 9175 Classe 1 IM  
ÖNORM B 3825 & A 3800-1

**Light Fastness**  
5 (ISO 105 - B02)

**Fastness to Rubbing**  
Wet: 3, Dry: 4 (ISO 105 - x12)

Note: Flammability performance is dependent on components used. See Camirafabrics.com for further details and cleaning instructions.

## CAMIRA SYNERGY - FABRIC BAND 5

**Composition**  
95% Virgin Wool, 5% Polyamide.  
Non metallic dyestuffs

**Weight**  
400g/m<sup>2</sup> ±5% (560g/lin.m ±5%)

**Abrasion Resistance**  
Heavy duty / 10 year guarantee  
Independently certified to ≥100,000  
Martindale cycles

**Flammability**  
EN 1021 - 1 (cigarette)  
EN 1021 - 2 (match)  
BS 7176 Low Hazard  
UNI 9175 Classe 1 IM  
NF D 60-013  
ÖNORM B 3825 & A 3800-1  
Optional: Please specify when ordering: BS 5852 Ignition Source 5 when FR treated  
BS 7176 Medium Hazard when FR

**Light Fastness**  
5 (ISO 105 - B02)

**Fastness to Rubbing**  
Wet:4 Dry:4 (ISO 105 - X12)  
Cleaning  
Vacuum regularly. Professionally dry clean or wipe clean with a damp cloth.

Note: Flammability performance is dependent on components used. See Camirafabrics.com for further details and cleaning instructions.

## CAMIRA RIVET - FABRIC BAND 1

**Composition**  
100% Repreve Recycled Polyester.  
REPREVE® Unifi, Inc.

**Environmental**  
Made from 100% post-consumer recycled polyester.

**Weight**  
280g/m<sup>2</sup> ±5% (390g/lin.m +/-5%)

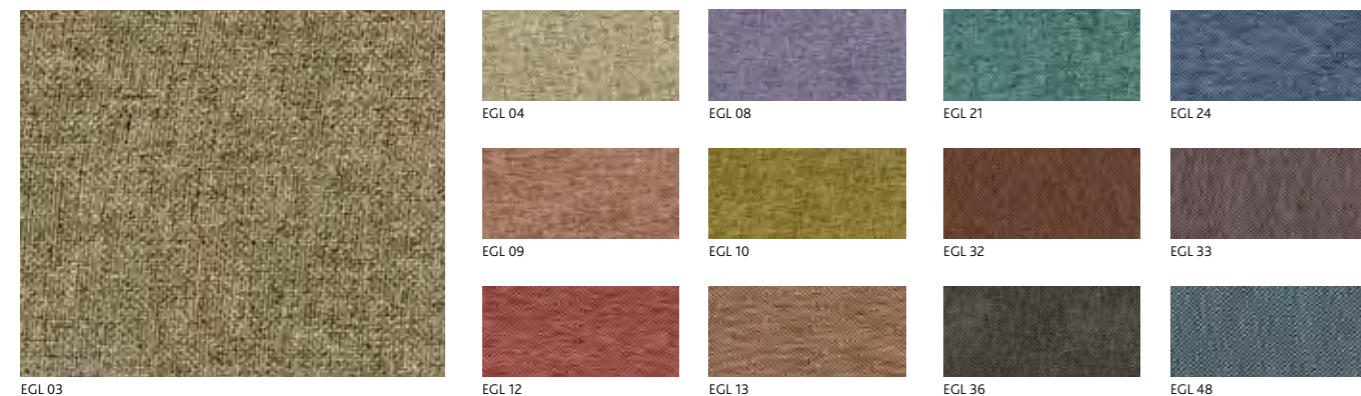

**Abrasion Resistance**  
Heavy duty / 10 year guarantee  
Independently certified to ≥80,000  
Martindale cycles

**Light Fastness**  
6 (ISO 105 - B02)

**Fastness to Rubbing**  
Wet: 4, Dry: 4 (ISO 105 - X12)

**Flammability**  
EN 1021 - 1 (cigarette)  
EN 1021 - 2 (match)  
BS 7176 Low Hazard

Note: Flammability performance is dependent on components used. See Camirafabrics.com for further details and cleaning instructions.

## CAMIRA XTREME - FABRIC BAND 3

**Composition**  
100% Recycled Flame Retardant Polyester  
Non metallic dyestuffs

**Environmental**  
Made from 100% recycled polyester  
Certified to the EU Ecolabel

**Weight**  
310g/m<sup>2</sup> ±5% (435g/lin.m ±5%)

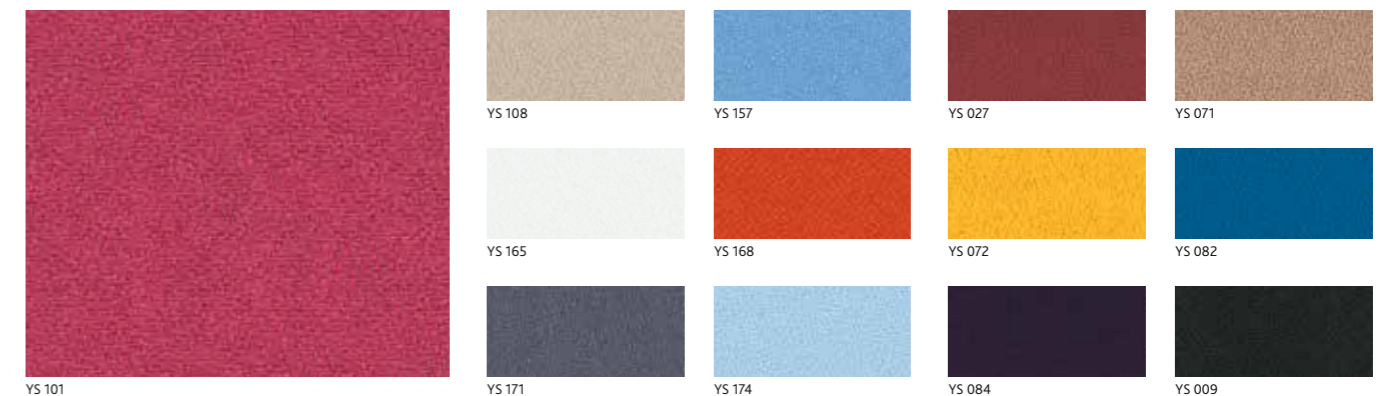

**Abrasion Resistance**  
Heavy duty / 10 year guarantee  
Independently certified to ≥100,00  
Martindale cycles

UNI 8456 & UNI 9174 Classe 1  
NF D 60-013  
Note: Flammability performance is dependent on components used.

**Flammability**  
EN 1021 - 1 (cigarette)  
EN 1021 - 2 (match)  
BS 7176 Low Hazard  
BS 5852 Ignition Source 5  
BS 7176 Medium Hazard  
DIN 4102 B1

**Light Fastness**  
6 (ISO 105 - B02)

**Fastness to Rubbing**  
Wet:4, Dry:4 (ISO 105 - x12)  
See Camirafabrics.com for further details and cleaning instructions

# MATERIAL FINISHES

All of the materials used within our furniture, seating and storage ranges are carefully selected and specified in accordance with our ISO 9001 certification. We work with globally renowned manufacturers to ensure we are able to bring to market quality products that stand the test of time and which offer an exceptional value proposition.

We have a standard colour palette of six MFC wood finishes spanning our core range of desking and storage comprising panel end, cantilever and bench solutions specified at 25mm for all desk tops. In addition, our Regent Executive range offers two dedicated MFC wood finishes at 36mm to give that extra special executive environment.

Our desk tops and wood storage is manufactured from FSC certified MFC - Melamine Faced Chipboard.

Our MFC supply chain is fully FSC (Forest Stewardship Council) certified and is accredited to ISO 14001 and ISO 9001.
